

WORKSTUDIO.ONLINE

WORK BETTER. SHIP FASTER.

SUMMER 2026 • ISSUE 01

Open a studio and get work done.

Browser-first workflows

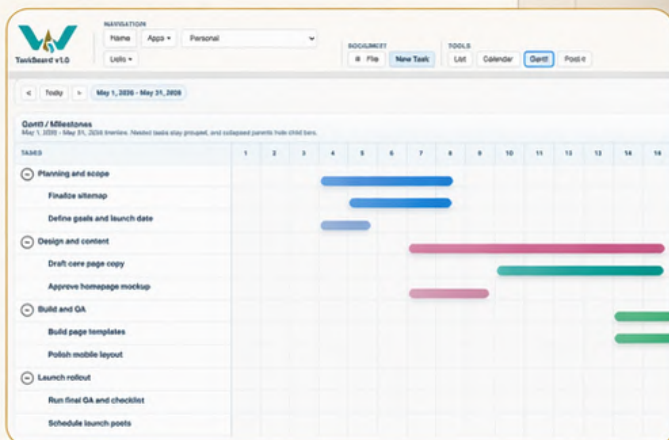

Everything you need, right in your browser.

One platform. Many studios.

Organize teams, projects, and files with clarity.

Built for real work.

Simple to start. Powerful to scale.

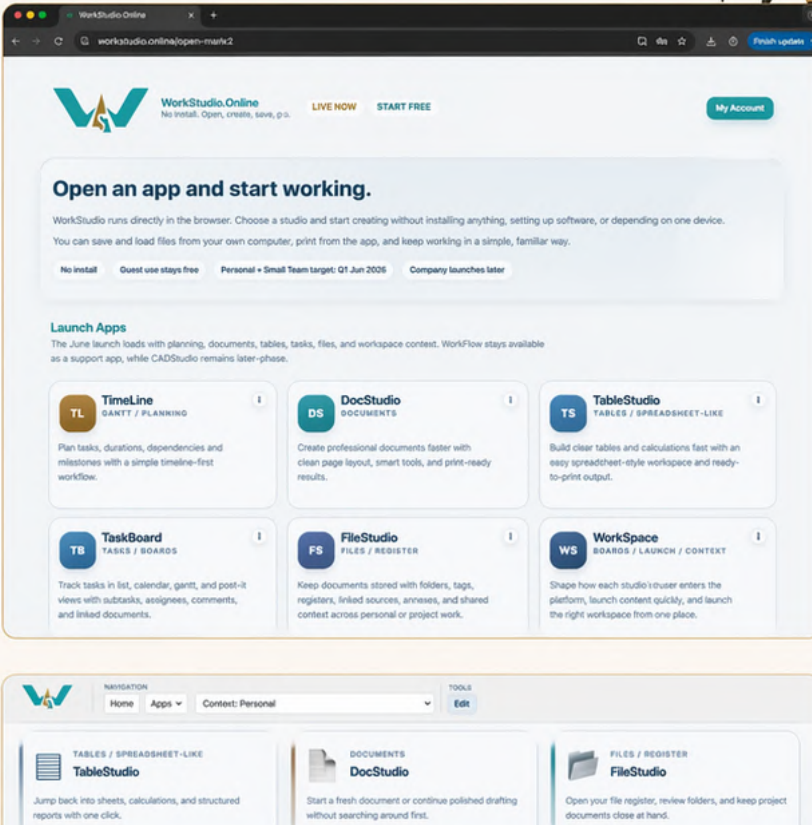

FOCUS • CLARITY • MOMENTUM

A browser-first place to start work.

WorkStudio.Online brings planning, documents, tables, tasks, files, and workspace context together in one practical environment. Start an app, pick the tools you need, and get to work—no install, no friction, just focus.

“One browser-first place to start work and keep moving.”

The screenshot shows the WorkStudio Online interface. At the top, there's a navigation bar with the logo, "WorkStudio.Online", and buttons for "LIVE NOW" and "START FREE". Below this is a section titled "Open an app and start working." with a brief description and a "My Account" button. The main area is titled "Launch Apps" and features six app launchers: TimeLine (Gantt / Planning), DocStudio (Documents), TableStudio (Tables / Spreadsheet-Like), TaskBoard (Tasks / Boards), FileStudio (Files / Register), and WorkSpace (Boards / Launch / Context). Each launcher includes a brief description of its functionality. At the bottom, there's a navigation bar with "Home" and "Apps" buttons, and a "Context: Personal" dropdown. Below the navigation bar are three app preview cards: TableStudio, DocStudio, and FileStudio, each with a small description.

Your workspace, your way—apps, tools, and context in one view.

WHY IT WORKS

- 
No install
 Open in your browser and start right away.
- 
Guest use stays free
 Try it out with no commitment or credit card.
- 
Local save/load and printing
 Work with your files and print directly from the app.
- 
Practical UI for real workflows
 Clear, familiar, and built for productive work.

One platform. Many studios.

WorkStudio.Online connects six specialized studios in a single, browser-first environment.

Move from planning to documents, tables, tasks, files, and workspace context without losing your flow. Whether you're a solo operator, a small team, a project coordinator, or part of an operations/admin function, everything you need lives in one calm, connected place.

“
Built for
real workflows —
not just abstract
dashboards.”

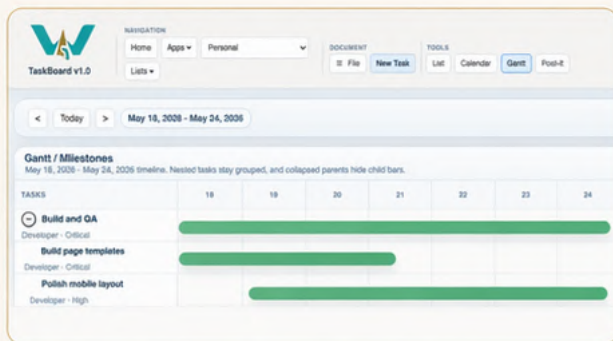

FIG. 1 TaskBoard Gantt view — plan visually, track timelines, and stay aligned.

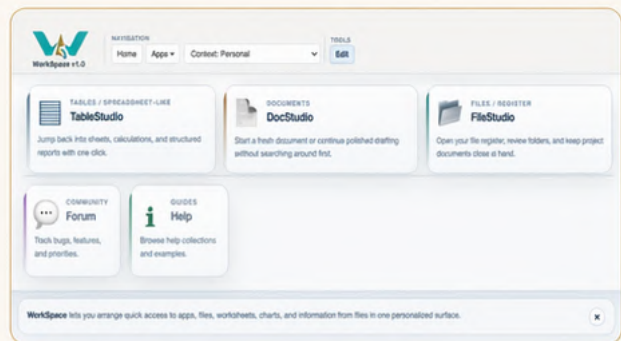

FIG. 2 WorkSpace home — quick access to all studios and what matters most.

PLANNING STUDIO

TimeLine.

Planning with clarity and precision.

TimeLine is the planning studio for real schedules. Build plans with dates, durations, dependencies, and resources—then keep them visible with the Gantt chart right beside the table. Spot risks early, stay aligned, and deliver on time.

“ Planning stays visible when the table and the chart stay close together. ”

DOCUMENT STUDIO

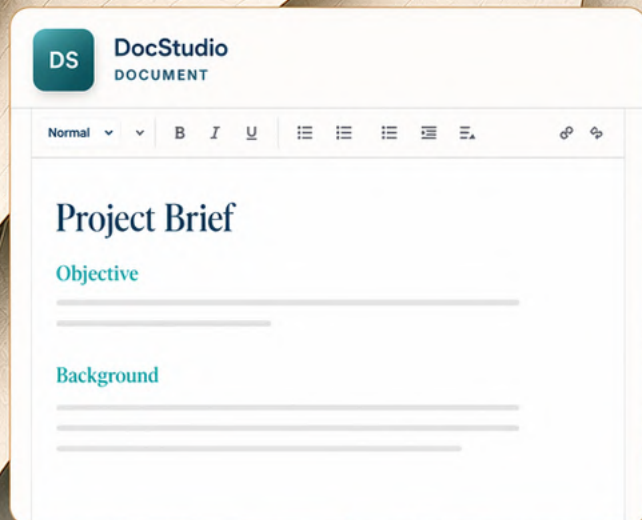

DocStudio.

Business writing, properly finished.

DocStudio helps you create clear, well-structured documents that are ready to share or print. It's built for briefs, notes, letters, reports, and other formal writing that needs to look professional on screen and on paper.

And because it's part of the wider **WorkStudio** platform, your documents stay connected to the work around them—from ideas and tasks to files and feedback—so everything lines up and nothing gets lost.

“ Business writing deserves more than a blank page and a save button. ”

Briefs + reports
Write with structure.

Print-ready
Finish with confidence.

Standalone or connected
Use it your way.

WorkStudio.Online

WORK BETTER. SHIP FASTER.

TableStudio.

Structured work, clearly built.

TableStudio is the studio for structured work. It keeps trackers, estimates, registers, resource lists, and budgets connected in one organized workspace—built for real operational work.

	Item	Category	Unit	Qty	Unit Price	Total	Status
1	Concrete	Materials	m ³	24.00	125.00	3,000.00	●
2	Rebar	Materials	kg	450.00	2.80	1,260.00	●
3	Formwork	Labour	m ²	60.00	18.50	1,110.00	●
4	Excavation	Labour	m ³	30.00	15.00	450.00	●
5	Transport	Equipment	trip	3.00	120.00	360.00	●
6	Site Setup	Other	ls	1.00	250.00	250.00	●
7	Survey	Labour	hr	6.00	65.00	390.00	●
Total						6,820.00	

“Structured work becomes clearer when tables are built for real operations.”

- ◆ Trackers keep every task in view.
- ◆ Estimates stay accurate and up to date.
- ◆ Registers capture the details that matter.
- ◆ Resource lists connect capacity to work.
- ◆ Budgets stay aligned with real progress.
- ◆ Built for structured, operational work.

Trackers + estimates
Organize the details.

Formulas + sheets
Build with structure.

Printable output
Share with confidence.

WORK BETTER. SHIP FASTER.

TaskBoard.

The same work, seen in the shape that fits the moment.

TaskBoard is for live work that needs to move, not just be listed. It gives teams multiple ways to look at the same tasks—including list, calendar, gantt, and post-it views—so the board can match the conversation instead of forcing every team into a single layout.

List. Scan, sort, and prioritize with clarity.

Calendar. See timing, deadlines, and workload at a glance.

Gantt. Map the plan and track momentum.

Post-it Wall. Spot patterns, shift priorities, and stay aligned as work evolves.

“

The same work can be seen as a list, a calendar, a gantt, or a wall of moving priorities. ”

POST-IT WALL

TaskBoard v1.0 | Home | Apps | Personal | DOCUMENT | TOOLS | Search tasks | Today | May 1, 2020 - May 31, 2020 | Day | Week | Month | Year | Show Completed

Post-it Wall

Planning and scope
Define the project goals and agree on the page list before design work begins.
Children: 2

Design and content
Create the visual structure and the key content needed for the main page.
Children: 2

Build
Implement the approved layouts and prepare the site for launch checks.
Children: 2

Launch
Prepare the final checks and the small set of launch materials needed for go-live.
Children: 2

CALENDAR (MONTH VIEW)

TaskBoard v1.0 | Home | Apps | Personal | DOCUMENT | TOOLS | Search tasks | Today | May 1, 2020 - May 31, 2020 | Day | Week | Month | Year | Show Completed

Planning and scope
Draft core page copy
Build page templates mockup
Polish mobile layout
Launch callout
Run final QA and checklist

Every view stays connected to the **same tasks and their context**: details, comments, files, subtasks, and relationships. Change the view, and the conversation stays intact.

WORK BETTER. SHIP FASTER.

FileStudio.

Files with memory, order, and traceability.

FileStudio is a browser-based register for documents and records that helps teams stay organized and in control. It captures the details that matter—statuses, references, annexes, tags, and linked sources—so every file is easy to find, understand, and trust.

From planning files and reports to drawings and working records, FileStudio gives you a single place to register, review, and track your output with complete traceability from start to finish.

“ A file register gives documents memory, order, and traceability. ”

ENTRY LAYER / PLATFORM CONTEXT

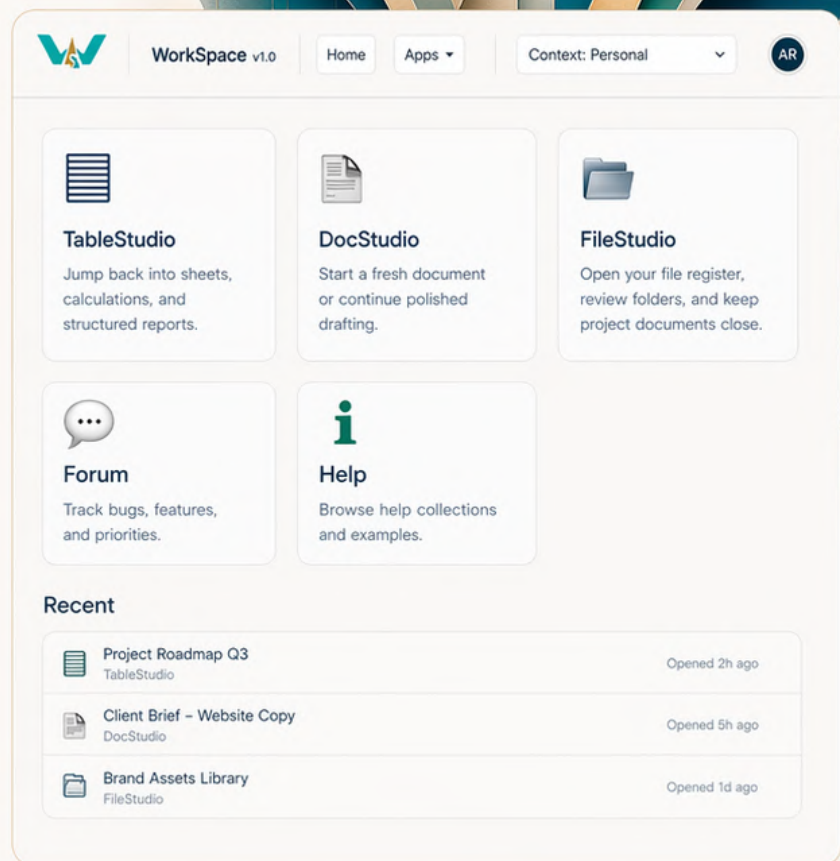

WorkSpace.

Where the platform starts to make sense.

WorkSpace is the entry layer of WorkStudio. It helps people know where they are, switch context with confidence, and open the right studio for the work ahead.

By making access clear and relevant, WorkSpace turns a multi-studio environment into a coherent experience—so work starts with clarity, not friction.

“The platform feels stronger when the place you enter already knows how work begins.”

Context + entry
Know where you are.

Quick access
Open what matters.

A sense of place
Start with clarity.

WorkStudio.Online

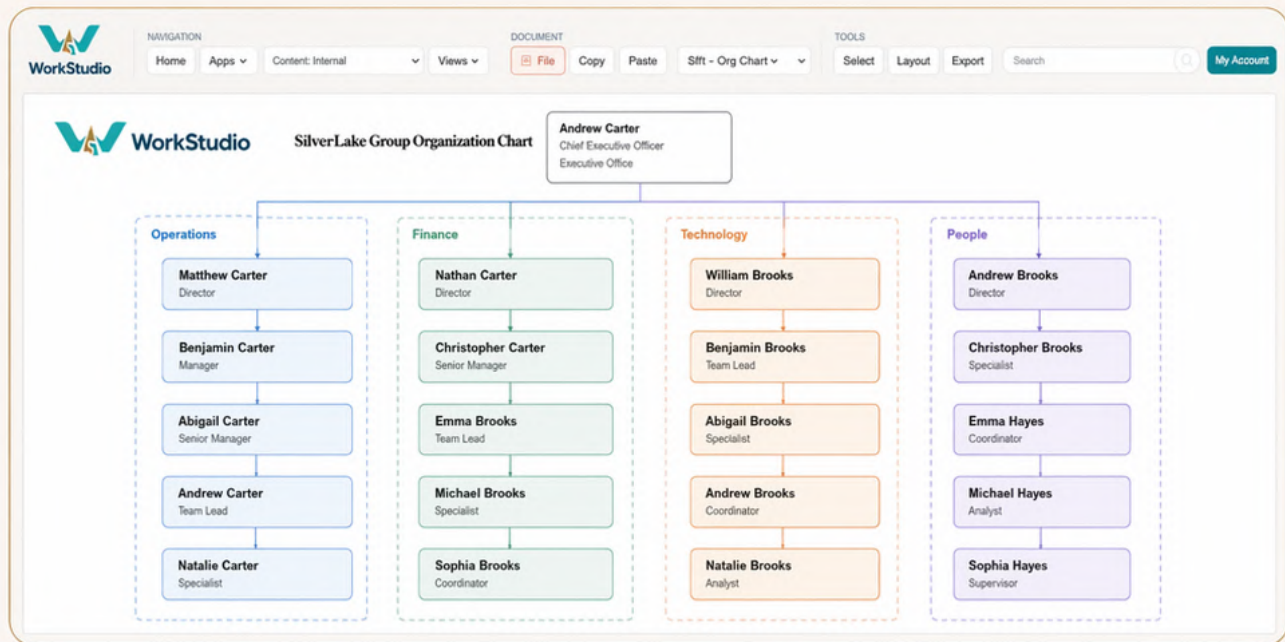

WORK BETTER. SHIP FASTER.

WorkFlow.

Make the structure behind the work visible.

WorkFlow is the visual mapping studio for process diagrams, organization structures, and internal operational flows.

Use it on its own for quick clarity with drag-and-drop editing and clean exports—or inside the WorkStudio platform, where connectivity turns diagrams into living, actionable knowledge.

“ Some decisions become easier the moment a process can be seen. ”

◆ Visual maps align teams, reveal gaps, and help you move work forward with confidence.

GUIDES / SUPPORT

Help.

Guidance is part of product quality.

The WorkStudio Help brings all your guidance together—apps, functions, and workflows—so your team can find what they need and confidently put it to work.

Great work starts with clarity. Help shortens the distance between curiosity and useful work by surfacing the right answers in context. Search across every app and workflow, browse by topic, and dive into step-by-step guidance that makes complex workflows feel simple.

“Guidance is part of product quality, not a separate extra.”
